### Product Description

Pattachitra is an exquisite art form of Odisha which is famous for its dainty, tribal pictures or the story enactment through the pictures. Here a unique blend of Pattachitra and waste glass bottles will leave you spell-bound. The small colorful tribal characters with black outlining over the plain white background adds a beautiful impression to the waste glass bottle. The alternate rows of the abstract designs with black shade are adding on a different aesthetic touch to the bland background. Grab this bottle for your own house or office or for gifting purposes at a very low amount.
