Product Description

Pattachitra is an exquisite art form of Odisha which is famous for its dainty, tribal lifestyle presentation through the silhouette characters. Here a unique blend of the intricate art work, waste bottles and natural colours is presented in a manner which will leave you spell-bound. The small colorful tribal characters with black outlining over the fluorescent pink, yellow, orange and blue base adds a beautiful impression to the waste glass bottle. The alternate rows of the abstract designs with black shade are adding on a different aesthetic touch to the bland background. Grab this bottle for your own house or office or for gifting purposes at a very low amount.
